### About This Game

A true test your wits and spatial reasoning.

The goal of the game is simple: forge a path for your convoy of trucks to reach its destination, but obtaining your goal often requires a mix of smart resource allocation, clever route planning, and strategic thinking. Your AI and human enemies will try to stop your progress with routes of their own.

DETOUR sports endless amounts of unique strategies, Adaptive AI opponents, 5 distinct modes of play, dozens of singleplayer maps, unlockables, online play, an epic soundtrack, and much, much more!

**Message from Zag:**

Hey, DETOUR players!

(All four of you.)

We made this game *a long time ago*. I was around 18 or 19 when this released, and I'm 28 now. The game changed hands once for about a 2 year period (it wasn't making money, and another company wanted to see if they could get some dollars out of it -- so I said sure!)

Anyway, it's back in my possession, and it's all back to where it was in term of *weird store stuff* and *endless giveaways*.

If you want to pick it up, it's fun, but there's no official support for the game's future. Maybe I'll make a sequel one day! It has some really unique gameplay, and I'm glad we got a chance to create it.

If you have any questions about the game, hit me up.

As for now, I'm working on Unfortunate Spacemen, on Steam, so follow my new stuff I'm doing on twitter; [@geoffkeene](#) or [@UnfortSpacemen](#) for the new game.
