OneCNC is a programmable CNC machine controller that works with. support, users, organizations, and publishers of open source dongle simulation software. The..A comparison of outcomes between patients undergoing balloon aortic valvuloplasty with versus without predilation. We sought to evaluate and compare the outcomes of patients who had balloon aortic valvuloplasty (BAV) with or without predilation. Patients who underwent BAV with or without predilation from January 1990 to December 1996 were identified. Demographic, procedural, clinical, and echocardiographic data were collected. Of the 113 patients included in the study, 43 (38%) underwent BAV without predilation. Predilation was used in 70 (62%). Univariate analysis demonstrated an association between the use of predilation and age (42 +/- 2 vs 51 +/- 1 years, P
